VITONTM SEALS OFFER A WIDE RANGE OF

OFFER A WIDE RANGE OF CHEMICAL RESISTANCES AND DO NOT DEGRADE QUICKLY FROM EITHER WEATHER, OZONE OR UV EXPOSURE.

VITON™ SEALS ARE AN EXCELLENT OPTION FOR MOST APPLICATIONS INVOLVING OILS, FUELS, AND MINERAL ACIDS.

VITON™ SEALS OFFER
EXCELLENT COMPRESSION
RESISTANCE AND ARE
DESIGNED TO RESIST MOST
OILS AND LUBRICANTS ESPECIALLY PETROLEUMBASED LUBRICANTS.

HOWEVER, VITON™ SEALS
ARE LESS RESISTANT TO
ABRASIONS AND TEARS.
BECAUSE OF THIS, VITON™
SEALS CAN BE USED IN
AN EXTENSIVE LIST OF
DIVERSE APPLICATIONS.

WARRANTY COVERAGE

Braber Equipment warrants that each new product will be free of any manufacturer defects in workmanship for 1 year. This warranty applies to the original purchaser of the product and cannot be transferred. Proof of purchase must be presented when requesting warranty service.

Exceptions to this warranty include: Honda GX Engines – 3 years against manufacturer defects*; Powerease Engines – 2 years or 1000 hours, whichever comes first, against manufacturer defects; Delevan, Shurflo, and Everflo pumps to the extent of two years from date of manufacture or one year from date of invoice, whichever occurs first against manufacturer defects.**

This warranty does not cover freight or labor charges associated with the inspection and testing of products which are found to not be a valid warranty claim.

All warranty returns require pre-approval by Braber Equipment before returning merchandise for a warranty inspection. Warranty claims without this pre-approval will not receive credit.

Freight claims or damages for products shipped by Braber Equipment must be reported within 48 hours of receipt. Orders received with missing parts need to be reported within 48 hours.

Hidden damage must be reported within 48 hours of first noticing and cannot be claimed on items received more than 90 days prior.

Exclusions to this warranty include, but are not limited to, misuse or negligent use of the product, expected and reasonable wear of consumable components and components included in regular maintenance.

For all warranty claims please contact Braber Equipment before performing service or providing replacement components.

*Must contact local Honda Power Equipment for warranty

**Delevan, Shurflo, and Everflo pumps should be on a dedicated (individual) circuit, protected by the fuse indicated on the motor label. The total current draw on the circuit must not exceed the recommended manufacturer's specifications. If the pump is used in conjunction with other components, overload current protection (fuse or circuit breaker) and wire size must be for the total amp requirement of all devices on the circuit. The pump should not be located in an area less than one cubic foot unless adequate ventilation is provided. Failure to adhere to the above will result in the unit being void of warranty.
